SUMMARY

Senior Frontend Engineer with 6+ years of experience building and scaling web applications using React, TypeScript, and Node.js. Experienced in frontend architecture, performance optimization, design systems, developer experience, and backend services. Led migrations from legacy systems, developed high-load APIs, mentored engineers, and contributed to technical hiring and engineering best practices.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frameworks: React, Next.js, Svelte, Express, Fastify

Technologies and Libraries: Redux, Zustand, Tan Stack Query, Vitest, Playwright, SCSS, MUI, AntDesign, Webpack, Vite, MongoDB, Redis, REST APIs, Monorepos, Design Systems

EXPERIENCE

Senior Frontend Developer

FxPro

Feb 2025 – Present

Limassol, Cyprus

Orchestration of FxPro main website and marketing landing pages, focusing on performance, SEO, modern frontend architecture, and user experience.

- Improved SEO through technical optimization, structured data, and performance enhancements
- Integrated AI-assisted development workflows to improve engineering productivity and reduce implementation time
- Led migration from legacy Angular architecture to modern React/Astro stack
- Improved backend performance and scalability through API optimization, caching strategies, and database tuning
- Initiated and contributed to shared UI Kit development
- Built responsive marketing and product experiences with strong performance and accessibility
- Delivered UX improvements across key customer journeys through iterative frontend enhancements
- Spoke at internal technical meetups, sharing knowledge and best practices

Senior Frontend Developer

Sber

May 2021 – Feb 2025

Moscow, Russia

Enterprise HR platform used by 85,000+ employees for self-service workflows, collaboration, and workforce analytics.

- Led migration to a widget-based architecture within a monorepo, improving team autonomy and reducing time-to-production
- Boosted IE11 performance for over 85,000 users
- Established comprehensive automated testing practices, achieving over 90% code coverage across critical applications
- Scaled legacy code to support 50x more load
- Contributed to a shared UI Kit adopted across multiple applications

Frontend Developer

EORA

Aug. 2020 – Apr. 2021

Remote, Russia

Interactive fairy tale for TV devices, controlled via remote control and voice commands, optimized for low-end hardware through extensive performance profiling.

Frontend Developer

Artezio

Sep. 2019 – Jun. 2020

Nizhny Novgorod, Russia

Platform with google-like calendar for lesson arrangement, lesson material storage, lesson planning, personal dashboard.

EDUCATION

RUT Russian University of Transport

Master of Science in Applied Informatics

Sep. 2020 – Jun. 2023

Moscow, Russia

UNN University of Nizhny Novgorod

Bachelor of Science in Software Engineering

Sep. 2016 – Jun. 2020

Nizhny Novgorod, Russia
